Tillägsuppgifter:

The technique is in very good condition for such an age, moves perfectly and without any problems. It starts well, the gearbox and the engine work well. Three seats in the front, it feels like sitting on a sofa at home. The windows and seats are electric and everything works, the air conditioner blows cold air beautifully. The body is beautiful and strong from the bottom, a little rusting under one rear door, 2-3 fingertips of rust between the edge of the rear roof and the trunk. The car is located in Estonia
